PROFILE

Computer Science & Technology student at Manav Rachna University, passionate about technology, problem-solving, and building impactful digital solutions. I split my time between writing code, designing interfaces, and learning how models think — drawn equally to clean engineering and human-centered design. I care about the small details — kerning, animation curves, edge cases — because they add up.

EDUCATION

B.Tech — Computer Science & Technology 2nd Year (Currently Pursuing)

Manav Rachna University

— Current CGPA: 8.89

Class 12 — Senior Secondary 91%

Sri Sathya Sai Vidya Vihar

Class 10 — Secondary 95%

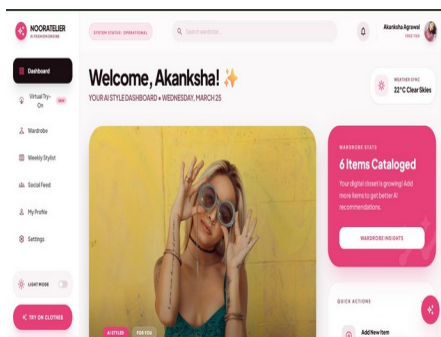

Sri Sathya Sai Vidya Vihar

SKILLS

Python · C Programming · Java · Web Development · Machine Learning · Data Structures & Algorithms

Quick learner · Strong communication · Team collaboration · Detail-oriented

SELECTED PROJECTS

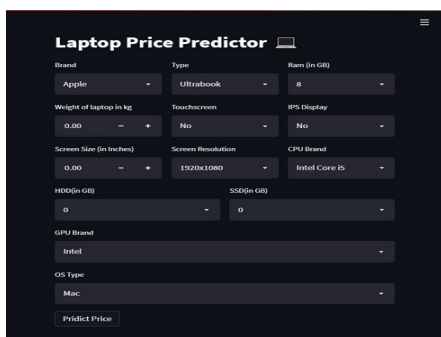

NoorAtelier 2026

UI/UX Design · Frontend Development

A modern fashion-based digital concept platform with an elegant, minimal interface for browsing curated collections.

- Designed and developed a brand-driven, visually appealing interface.
- Focused on clean layout, modern aesthetics, and seamless browsing UX.
- Integrated brand storytelling and editorial-style content presentation.

Laptop Price Prediction Model 2026

Machine Learning · Data Processing

A regression-based predictive system that estimates laptop prices from hardware and configuration features.

- Built on a structured dataset of laptop specifications.
- Applied data cleaning, preprocessing, and feature engineering.
- Implemented and tuned regression models for improved accuracy.

EXPERIENCE

Social Impact Intern 2025

Loria Foundation, Faridabad

- Worked with children at a community learning center during first year of B.Tech.
- Gained real-world exposure to teamwork, communication, and community-driven work.
- Contributed to teaching activities and on-ground program coordination.

ACHIEVEMENTS & COMPETITIONS

HackVerse 2.0

HackMor 2026

InnoSkill

HackVerse 2.0 — Consolation Prize

IILM University

- Recognized among standout teams at an inter-college hackathon; built a working prototype under tight time constraints.

Smart India Hackathon (SIH) — Participant 2025

National-level Hackathon

- Participated in India's flagship national-level innovation hackathon, collaborating on a problem-statement solution.

HackMor — Participant 2026

Inter-college Hackathon

- Participated in HackMor, contributing to ideation and prototype development with the team.

CDC — Pitch & GD (Level 3)

Career Development Cell Competition

- Advanced through the pitch round and group discussion stages, reaching Level 3.

InnoSkill — Inter-College Competition

Group Discussion Round

- Presented ideas and engaged with peers from multiple institutions.

B E Y O N D T H E S C R E E N

Sports & Campus Life 2026

Manav Rachna 12th Girls Sports Meet — Winner

- Represented the team and contributed to a winning campus performance.
- Active in sports, events, and competitions across campus.
